

# Lecture:

## Development Environment Setup, Part 1

---

- Google Chrome Browser (The link? Google for it! 😊)
- You'll need to set up an account on GitHub.com. All of the course's code will be hosted there as well as your assignment submissions.  
<https://github.com/>
- Text editor will use in the class is Sublime Text 3 (not 2):  
<https://www.sublimetext.com/3>
- Some other editors worth looking at
  - Brackets, open source, developed by Adobe  
<http://brackets.io/>
  - Atom, open source, developed by GitHub  
<https://atom.io/>
  - Visual Studio Code, open source, developed by Microsoft  
<https://code.visualstudio.com/>
